Tuesday, Oct. 15.—There have been fair supplies of Oats and Oatmeal from Ireland since last Tuesday, but they are still small for Wheat and Flour. The trade during the week has been steady, with firm prices generally, the principal alteration in value has been an advance of od to is \$\mathbb{P}\$ quarter on Indian Corn. At this moffaint's market we had a fair altendance of buyers, and a moderate extent of business in Wheat and Flour. Full prices were obtained for foreign Wheat, and Irish new, being in scanty supply, was fully 10.\mathbb{P}\$ bushed dearer than on this day connight. Flour quite supported later rates; there was no change in value of best mealing Oats, but Oatmeal was 3d \mathbb{P}\$ 240 lbs cheaper. Barley, Beans and Peas were in limitely request. The week's advance of 6d to 1s \mathbb{P}\$ quarter on Indian Corn was minimained to-day, but only two or three small purchases of best American yellow transpired, at 23s \mathbb{P}\$ 450 lbs. Manchester State of Trade.

October 14.—The business transacted this week has been to a fair extent in purucuiar descriptions of goods, especially in cloth for the India market, and at sightly improving rates, though scarcely equal to the advance on the style, so that the position of the manufacturers, in cases where a slight improvement has been realized, is no better than it was a month ago. In most other kinds of cloth and qualities, their position is rather worse. The demand for velvets is still very good, and affording a fair remuneration to all parties concerned. The beniness doing in prints is considerable, though it cannot be called a large one. The dyear are tolerably laws. The German houses are not bisly the season considered. There is more business doing to the Brazils than of lare, and likely to continue. The home trade may be called healthy, and the business to Ireland, as compared with that of the last two years large. Yarns for export are fully as dear, but the advance not equal to that on the staple. For India the demand is good, at sightly improving rates. The Russian houses appear to have nearly insisted their purchase of sine yarns for the season. The market closes generally firm.

Late and Important from Cuba-Arrest of Spies.

By the kindness of a friend we have been favored with the perosal of a letter from Cuba, concerning the late movements of the Spanish Government in that island, &c. It is dated, Matanzas, Isle of Cuba, Oct. 15, 1850, and says that on the evening of the 7th, and the morning of the 8th of the present month, lifteen persons, all Cubans, were arrested by the government and put in prison, charged with being spies and revolutionists: many, however, made their escape from the island. The writer of the letter then goes on to recapitulate the names of those arrested,

the island. The writer of the letter then goes on to recapitulate the names of those arrested, among whom we noticed that of Don Francisco de la O. Garcia, Don Saturnio Hernandez, and others of the most influential and wealthy men on the Island. Among those who escaped was Col. Francisco Hernandez Morejon, an officer in the National Army, and his brother Don Pedro.

It is said that those men who are arrested are some of the most wealthy and influential persons in Cuba, and though they have been taken up only on the mere supposition of being spies, the whole country around, including even the soldiers and officers of the army itself are dissatisfied, and dark mutterings are frequently heard. By the intervention of some officer of the government one or two of the gentlemen were released, and managed to leave the Island. The principal officers of the grand army and even some of the government emissaries, it is said, disapprove of the course thus taken, and would perhaps on the first opportunity resist the government in so doing. The writer of the letter, we are informed, is a person of much influence and rank in the Island, and is personally acquainted with the gentleman apprehended, excelled as with all the different movements. acquainted with the gentleman apprehended, as well as with all the different movements contemplated among the liberty loving Cubaus. We should not at all wonder if something was on foot once more to start a new revolution for the establishment of republicanism in that Island.

SATURDAY, Oct. 26-P.M. The Stock market continues to be active and buoyant, the upward reaction which commenced yesterday having continued. For Governments the demand is moderate, and there are several sellers. The sales of Sixes of 1867, were considerable, and they closed at 116%, a decline of 1. Several bear offers were made, one of \$50,000 at 116%, seller sixty. Indiana Preferred Fives sold to the extent of \$30,000 at 30 on time. Reading Bonds were steady and in fair demand. Income Bonds were scarce, and held generally at 93. A single Bond sold at the Second Board at 92% .-Holders are looking for 95 and upward for these time last year. Farmers advanced 1 P cent

securities. Erie Stock was steady at 76, with moderate sales. In Harlem there was no change from yesterday. Reading, Farmers, Norwich and Portsmouth were the favorite Fancies. The former advanced under considerable sales to 671, an improvement of \$ \$\psi\$ cent. The business for October on this Road has been enormous. The tunnage of last week was 49,556 tuns. Total for the year 1,082,708 tuns against 975,823 tuns to same with sales 4,500 shares. The market was firm at the close. Norwich closed at 60, equal to \$45 ₱ share, showing an improvement of ‡ ₱ cent. The late advance does not bring out much Stock, as at the present prices it is a 10 P cent. Stock. The dividend in December will be \$2.50 ₽ share. equal to 51 \$\vec{q}\$ cent. or 11 \$\vec{q}\$ cent. per annum or the present cost, and as the receipts are every year increasing, and the debt due previously to 1856, is all arranged, the dividends are likely to increase next year. Long Island was a little easier and heavy. North American Trust advanced 1 P cent. The demand is said to be from Boston where they are reported to have some reliable information in regard to a compromise with the creditors of this concern, by which the assets will be divided. Morris advanced 1 P cent. but the

To Havre the packet 1st Nov. is full at ? for Cotton and Whalebone; ½c for Wax, \$7 for Bark, and \$5 and \$7 for

Ashes. The packet 8th is asking higher prices. In addition to the purchases of Stocks and Bonds at the Board for investment, there is an unusually large amount of business doing at private sale for the same purpose. Parties who have Bonds of good Railroads for sale have made very large transactions within a week or two at advancing prices. There seems to be an unusually large amount of surplus funds seeking safe and permanent investments, and as Federal and New York State Stocks, &c. are so high as to yield but 4 or 41 P cent interest, the attention of investors has been turned to Railroad Bonds, especially of Western Companies. The Bonds of our New-York Roads having been nearly all absorbed, we hear of several propositions made for such Bonds during the week, partly for foreign account, in cluding entire remainders of loans at advanced prices, a portion of which had been previously issued. In one case the bid was for exceeding half a million of dollars. A sale of \$50,000 of Chicago and Galena Railroad Bonds was among the transactions, and the parties offered to take \$100,000 on the same terms.

The Payments at the Sub-Treasury were large to-day, \$341,848; Receipts, \$61,578; Balance, \$4,307,602; same day last week, \$4,506,393; Decrease, \$198,791. The payments from the Sub-Treasury during the month exceed the payments to the Treasury over Twelve Hundred Thousand Dollars.

The steamer Arctic took no specie. The supply of silver is nearly exhausted and the Banks we understood decline to give their customers more than \$5 in change at one time. The premiums for silver coin are high. Foreign gold is also scarce and the rates of Exchange are not high enough for shipments of American gold. The receipts of silver and gold coins from the West, Canada, &c. are about equal to shipments which are made. The quotations of Specie are as fol-

FINANCIAL.

MICHIGAN SOUTHERN RAIL-TROAD COMPANY. \$400,000 SEVEN PER CENT. MORTGAGE LOAN—Socied proposals for four hundred thousand dolars of the first and only Mortgage Bonds of the Michigan Southern Railroad Company, bearing seven per cent interest, will be received until 15th day of

November next.

These bonds are issued under the provisions of a special act of the Legislature of Michigan, authorizing the Coopany to dispose of or sell their shigations, either within or without that State, at such rates or prices as may be agreed upon, and if sold below par, to be as binding as if sold at par.

They are secured by a mortgage executed to Shepherd Knapp, Esq. of the City of New-York, in trust for the bond-holders.

Knapp, Esq. of the City of New York, and the Company's This mortgage covers the entire line of the Company's Road in Michigan, whether already built or hereafter to be constructed, and it provides that bonds to an amount not exceeding one million of dollars in all, may be issued; of which amount not more than \$400,000 can be issued until after the Road shall have been completed to Sturges' Prairie, a distance of 117 miles from Lake Erie, to which point it will be completed by the first of January next.

tance of 117 mines from Lake Erick, or watch yours completed by the first of January next.

The security offered for the bonds is therefore a mortgage lien, and substantially the only lien, upon a road which when complete to the state line of Indiana, will have nearly 140 miles of main line, beside a branch of 10 miles, and which will have cost, including the original outlay by the State, and the relaying the present track, about \$2,500,000; of which \$1,500,000 will be represented by stock.

State, and the relaying the present track, about \$2,200,000; of which \$1,500,000 will be represented by stock.

The portion of the road already in operation, about 70 miles, yields an income ample to protect the entire debt proposed to be created, and the length of completed line and consequent increase of revenue, is daily increasing, affording a security which will place the payment of the debt beyond all contingencies.

For August, 1850, the earnings were \$16,417.77. For September \$20,488. These receipts were derived from the road in its present unfinished condition. Fifty miles of completed road will be added to it within three months, and will be extended to the St. Joseph's River, at the Indiana State line, early next Spring, thus doubling the length of the main line now in operation.

This road is a part of a continuous line of Railroads from the City of New-York to the Mississippi River, by way of the Eric Railroad and the Lake Shore Road, and is an important link in the chain.

Nearly the whole of this great line from New-York to the Mississippi River is either completed or in the course of construction.

As the means for the construction of the road ready for the

Mississippi River is either completed or in the coaster coastruction.

As the means for the construction of the road ready for the fron are provided for by stock subscribed and being paid in, by regular installments, and the proceeds of the bonds are mainly required for the purchase of fron heavy H rail and equipments, it is believed that no rairroad bonds before the public offer greater inducement for safe investment than those of this Company.

The mortgage empowers the Trustees, in case of failure, to pay the principal or interest of the bonds, to take possession of the road and receive its earnings, or to sell it, on due notice, and apply the proceeds to the extinguishment of the debt.

debt.

The bonds are in sums of \$1,000 each, payable at the Mochanics' Bank, in the City of New-York, Nov. 1, 1880, with miterest at seven per cent. per annum, payable semi-annually in New-York, on the 1st Nov. and 1st May. Interest warrants or coupons, are attached to the bonds.

Four hundred thousand dollars of the bonds are now offered for sale.

fered for sale.

Scaled proposals for any amount not less than \$1,000 will be received until the 15th day of November next.

Proposals may be addressed to WINSLOW, LANIER & CO. 52 Wall-st. or to E. C. LITCHFIELD, Trossurer, 62 Wall-st. Indorsed "Proposals for Michigan Southern Rairond Bonds."

\$20,000 (half the amount now offered) will be disposed of absolutely and without reserve to the highest bidder. The Company reserve the right to withdraw the remainder if the effers are not satisfactory.

All necessary information in relation to the bonds, together with maps, may be obtained by calling on WINSLOW, LANIER & CO. or E. C. TARMERS' BANK OF KENTUCKY. SUBSCRIPTION to \$500,000 of the CAPITAL STOCK of the FARMERS BANK KENTUCKY—The undersigned having been appointed by the Board of Directors of the above named Bank their Agents in this city to receive Subscriptions to its Capital, Stock to the amount of

Sow often at the office of WINSLOW, LANDER & CO. 32 Wall-st, where subscriptions will be received until further notice.

Five thousand share of \$100 each are authorized to be sold at par; \$30 on each share must be paid at the time of subscribing \$20 on the 15th day of January next, (1851); the residue subject to call by the Board of Directors. Parties at the time of subscribing may, however, pay for their shares in full, if so disposed.

This Bank was chartered by the Legislature of Kentucky at its last session, to supply, in part, its demand for more capital growing out of the wholesome business wants of the citizens of the State, the present Banking daptial being altogether inadequate. The charter is liberal in its provisions; bas thirty sensy to un, with no power reserved by the Legislature in any wise to after or control t. The Capital Stock is \$2,4400,400, of which about \$700,000 has aiready been taken in Kentucky, the residue, excepting the \$20,000 here offered, will be taken by citizens of that State and elsewhere. The Bank, with several of its Branches, is now in operation. The Mother Bank is located at Frankfort, the Seat of Government. The State of Kentucky is believed to be a most favorable and secure location for Banking Capital. The exports of the State are very great, consisting principally of herm, corn, catle, horses, mules, hogs, bale rope, bagging, &c. &c.; to facilitate which large amounts of Exchange on the South and North are offering to the Banks.

The high credit of the State of Kentucky and that of her Banks are evidence of what this new Bank will be; the credit and standing of her Banks are equal to those of any other State in the Union; their notes form an important part of the circulating needing of the Banks are equal to those of any other State in the Union; their notes form an important part of the circulating needing of the Banks are equal to those of any other State in the Union; their notes form an important part of the circulating needing of the Banks in the Western and South-w

Western and South-western States expire within the next twelve years.

The Farmers' Back of Kentucky having thirty years to run, will have a field of circulation of great value to its stockboilders.

The management of this Bank is in highly respectable axid able hands.

The Directors think they will be able to pay dividends equal to any other Bank in the State.

Mr. Hanna, the President of the Bank, is now in this City;
